Food Processing and Food Analysis

The Drying of Foods and Its Effect on the Physical-Chemical, Sensorial and Nutritional Properties93
Raquel P. F. Guiné

Study & Application on the Enzyme-Linked Immunosorbent Assay System of Grain in Southern China101
Wenhui Li, Jiadong Chen, Li Liu, Huiyong Li, and Ting Xu

Effect of Roasting on Phenolics Content and Antioxidant Activity of Proso Millet..... 110
Han Fei, Zheng Lu, Di Wenlong, and Li Aike

Bread Quality and Alveograph Rheological Properties of Composite Flour Made from Flaxseed and 650 Type Wheat of Strong Quality for Bread Making 117
Georgiana G. Codină and Silvia Mironeasa

Development of a Quartz Crystal Microbalance with Impedance Measurement with Bio-Gold Nanoparticles for Enhanced Sensitivity 122
Ádám G. Nagy, Nóra Adányi, István Szendrő, George Szakacs, Viktória Bócai, István Lagzi, and Eszter Tóth-Szeles

Texture Analysis of Freeze Dried Banana Applying Scanning Electron Microscopy Combined with Image Analysis Techniques.....127
Facundo Pieniazek and Valeria Messina

Effect of Dynamic High-Pressure Microfluidization Processing on the Nutritional Components and Antioxidant Activity of Chinese Jujube Juice132
Wei Zong, Shunhong Wu, and Xiaoyuan Wang

Comparison of Microwave Vacuum-, Freeze- and Hot-Air Drying by Energy Efficiency and Aroma Composition of Dried Hop (*Humulus lupulus*)136
Sándor Ferenczi, Helga Molnár, Nóra Adányi, and Zsuzsanna Cserhalmi

The Use of Edible Flowers in Human Food: Sensory Analysis of Preparations140
Natália K. Simoni, Fernanda F. Santos, ThaináA. Andrade, Anna Lúcia C. H. Villavicencio, and Maria Elisabeth M. Pinto-e-Silva

Food Nutrition and Health

The Relationship between Neck Circumference and Obesity in Children and Adolescents144
