

International Journal of Food Engineering

CONTENTS

Volume 5, Number 4, December 2019

Food Technology

Anti-fungal Activity of Schinifoline against *Candida albicans* in Vitro.....214
Chengjie Shu, Mengli Zhang, Fenglun Zhang, and Weiming Zhang

Effect of Transglutaminase on the Quality of Dried Alkaline Noodle from Rice Flour218
Anocha Suksomboon and Onuma Pleansri

Influence of Hydroxy Phosphorylated of Wheat Starch on Chinese Fresh White Noodles226
Huili Yan, Qiyu Lu, and Cuicui Li

Product Development of Rice Energy Gel and Effect on Blood Glucose and Lactate Concentration in General Sport Subject234
Nut Tharnpichet, Wachira Jirarattanarangsri, Sukhuntha Osiriphun, Prasit Peepathum, and Witid Mitranun

Food Engineering

Optimization of Monounsaturated Fatty Acids and Oil from Walnut Seed: Kinetics and Thermodynamics242
Nneka N. Uchegbu, Callistus N. Ude, and Eunice O. Uzodinma

Enrichment of Rice with Grape Peel Powder by Extrusion.....250
La é Martins Fontoura, Jos é Luis R. Ascheri, and Jhony W. S. Vargas

The Optimal Formula of Longan Energy Gel Drink Containing of High Bioactive Compounds and Antioxidant Activities.....256
Kochkaew Suriya and Somchai Jomduang

Food Science and Safety

Drying Characteristics and Moisture Sorption Isotherm of *Batuan* [*Garcinia binucao* (Blanco) Choisy] Fruit262
Reifrey A. Lascano, Jennie Marie E. Orbiso, Erlinda I. Dizon, Teodora M. De Villa, and Marife T. Ombico

Comparative Study of Rheological Characterization and Classification of Honeys with Their Physicochemical Properties.....268
Vincent O. Anidiobu, John U. Nwalor, and Faith U. Babalola

Evaluation of Microbiological and Toxicological Quality (Heavy Metals) in Fresh Artisan Cheese Commercialized in Puebla City, Mexico.....276
Alfredo C. Ben tez-Rojas, Raúl J. Delgado-Macuil, Genaro G. Amador-Espejo, Eliana Eustaquio-Rosales, and Yolanda L. Martinez-Martinez

Food Microbiology

Analysis of Phenolic Compounds and Antioxidant Properties of Wines from Three Wine Grape-Growing Regions in China282
Tiantian Chang, Jiming Li, Chao Li, Wenguang Jiang, and Yuping Zhao

Antioxidant Capacity and Total Phenolic Content Variations against *Morinda citrifolia* L. Fruit Juice
Production Methods.....293
Malsha H. Samarasiri, Thushitha A. Chandrasiri, Diunuge B. Wijesinghe, and Sanja P. Gunawardena
